

Special Topics: Data Analytics and Visualization in Healthcare
CSCI-GA.3033-096 (19635)
Final Project Topic (Part I)

Instructions:

- For this part of the project, please find a topic/question you are excited about and at least one dataset that addresses your topic. Prepare a 1-page double-spaced summary of your topic.
- Please title your paper with a clear headline of the topic or question you are investigating.
- Include a brief history and context of the topic. Please include why you picked this question or topic.
- Describe the dataset you found. For example, you can include the source, format, how many participants or cases, and the types of variables you are interested in.
- Include and refer to at least three references (one reference can be the reference for your data source).
- Please make sure the references that you use are credible.
- Some helpful Resources to get you started:
 - [COVID Data Hub at Tableau](#)
 - [Racial Equity Hub](#)
 - <https://www.tableau.com/data-sets-students>
 - <https://catalog.data.gov/dataset>
 - <https://www.who.int/data/collections>
 - <https://wonder.cdc.gov/>

Notes:

- This is a group assignment.
 - Groups should be no more than 2 to 3 students.
 - Exceptions can be granted to groups of 4 students, but the work of a 4th member should be justified.
 - Please include the names of the members of your group.
- Please submit a Word/PDF document per group.
- Students can use the Brightspace forum [Topics for the Final Project](#) to share the healthcare topics that interest them for the final project. This can help students to connect with others with similar interests and form groups for the final project.
